"The more you seek the uncomfortable, the more you will become comfortable."

Summary

Detail-oriented full stack web developer specializing in front-end design and development. Proficient in HTML, CSS, and JavaScript, with a keen eye for creating visually stunning and intuitive user interfaces. Experienced in leveraging front-end frameworks such as React, Bootstrap, Materialize, and Tailwind CSS to build dynamic and responsive web applications. Skilled in translating design mockups into pixel-perfect layouts while ensuring cross-browser compatibility and mobile responsiveness. Passionate about creating seamless user experiences through interactive elements, animations, and the effective use of these frameworks. Collaborative team player with a strong understanding of user-centered design principles and a commitment to delivering high-quality, aesthetically pleasing websites. Seeking an opportunity to utilize my front-end expertise and proficiency in Bootstrap, Materialize, and Tailwind CSS to create engaging and impactful web solutions.

Skills

HTML - CSS - JavaScript - JQuery - React.js - Express Node.js - MongoDB - mySQL
